Re: 100-FR-1 Operable Unit Work Plan, Request for Exemption

Dear Mr. Wisness:

The U.S. Environmental Protection Agency has reviewed your request for exemption from submittal of the 100-FR-1 Operable Unit Work Plan, Draft B. Significant changes have taken place since the original work plan was submitted, specifically, the development of the Aggregate Area Management Strategy and the creation of the 100-FR-3 Groundwater Operable Unit. In light of these changes we agree that the available resources will be more effectively put to use in writing the re-scoped work plans for 100-FR-1 and 100-FR-3 rather than in the rewrite of a Draft B work plan.

We hope to work closely with you in the preparation of the re-scoped work plans and anticipate meeting with you shortly to disposition applicable comments. If you have any questions, please contact me at 376-4919.

Sincerely,

Pamela S. Innis
Unit Manager
